Happy Christmas?

We hope it was. Sadly it's a fact that there is a marked increase in family and matrimonial problems in the month of January. According to a study by insidedivorce.com, more Britons initiate divorce proceedings on 8 January than on any other day of the year.

Brain Chase Coles has served clients in Hampshire for over 30 years. The experts in our family law team and specialist Haymarket Family Mediation division can help you find a way of facing the New Year positively and with sensitive support.
